ENVIRONMENTAL POLICY STATEMENT

CFM Air Conditioning is an established air conditioning installation and servicing organisation. Our mission is for all staff to work as a team to provide our customers with a high-quality service provision, improving local environments with a focus on sustainability.

At CFM Air Conditioning, we are committed to the protection of the Environment and the prevention of pollution by minimising the environmental impacts of our activities. To achieve this aim we are committed to minimise waste of materials, substances and energy. In our offices we are committed to the recycling of materials and substances and aim to increase the portion of recycling each year.

We are also committed to purchase and use materials, substances and equipment that are environmentally friendly and minimises environmental impacts and the prevention of pollution in accordance with the ISO 14001:2015.

We regularly review our activities to bring about better outcomes in our environmental performance.

Specifically, CFM Air Conditioning is committed to:

- Conducting our operations to minimise environmental risk and, wherever practicable, eliminate adverse environmental impacts
- The protection of the environment and the setting of rigorous environmental objectives, particularly with regards to:
 - efficient use of energy (including appropriate use of alternative fuels, conservation of water, minimisation and recycling of wastes, prevention of pollution)
 - effective use of virgin resources and supplemental materials
 - fulfilling our compliance obligations in regard to relevant environmental legislation, regulations, standards and codes of practice as the absolute minimum requirement
 - conducting business with organisations who have a commitment to the values and objectives contained in this environmental policy
 - continual improvement of the environmental management system to enhance environmental performance

Through communication and training, our employees and contractors will be encouraged and assisted to enhance Company's' environmental awareness and performance.

All Company personnel are required to work towards the fulfilment of the Environmental Management System, and management will regularly review this policy, and the other elements of the system, in order to maintain its suitability and effectiveness.
